

# INTERNAL VACANCY

**Job title :** Laboratory Technician

**Location:** Southampton

**Closing date :** 14 September 2017

## **Job Summary**

Primerdesign are looking for an enthusiastic and self-motivated Laboratory technician, who would like an opportunity to work within a small but fast growing biotech business.

We are experts in real-time PCR, a molecular biology technique for detecting the presence of DNA and quantifying it. We have customers in many different industries including academia, research, healthcare, food industry and the veterinary industry selling to over 100 countries worldwide.

Working as a laboratory technician you will be working within a team responsible for kit manufacture and quality control and will contribute to the efficient running of our laboratories and operations department.

## **Main duties and responsibilities:**

1. Keep accurate laboratory notes/records
2. Contribute to the general day to day running of the laboratory; involves tidying, maintaining stock levels and cataloguing/storing stock correctly.
3. Manufacture and QC kits and reagents according to SOPs
4. Work according to our ISO13485 quality system
5. Use and maintain laboratory equipment
6. Maintain accurate batch record data within our computer systems
7. Work within a small team to ensure all tasks are completed accurately and efficiently
8. Help with day to day administration tasks

## **Qualifications and experience required**

Candidates must have excellent organisational skills and good communication skills. The ability to work in a logical and organised manner, with excellent attention to detail is essential for this role.

Previous laboratory experience would be desirable but not essential as full training will be given.

Hours of Work	37.5 per week
