

# PRomate<sup>®</sup> COVID-19 Assays

Total workflow solution for the qualitative detection of SARS-CoV-2 viral RNA

Now available in a lyophilised format for ambient shipping\*, PRomate<sup>®</sup> COVID-19 assays are a total workflow solution, inclusive of sample preparation, qPCR amplification and analysis on the genesig<sup>®</sup> q16 or q32 instruments, for qualitative detection of SARS-CoV-2 from anterior nasal samples on dry swabs.

Rapidly screen individuals for SARS-CoV-2 infection or aid diagnosis in patients suspected to be infected with COVID-19, **without** the need to process samples inside a Class II Biosafety Cabinet. A proprietary sample preparation buffer inactivates viral particles, offering the flexibility to test both in a central laboratory or a decentralised setting.

FOR USE WITH DRY SWABS ONLY

## KEY FEATURES

- **NEW!** Lyophilised assays can be shipped at ambient temperature (Product codes D00076 & D00077)
- Direct from swab results in ~80 minutes, enabling near-patient testing approaches
- Highly sensitive test with no extraction necessary
- Validated for analysis on genesig q16 and q32 real-time instruments
- CE-marked
- Approved by CTDA (HM Government) for use in the UK (Product codes D00068, D00070 and D00074 only)

Description	Product Code	Details	Detection Profile
PRomate <sup>®</sup> COVID-19 (q16) 1G	D00068	genesig <sup>®</sup> q16 format-96 reactions (Pack 1-Ambient and Pack 2-Cold)	ORF1ab gene
PRomate <sup>®</sup> COVID-19 (q32) 1G	D00070	genesig <sup>®</sup> q32 format-96 reactions (Pack 1-Ambient and Pack 2-Cold)	ORF1ab gene
PRomate <sup>®</sup> COVID-19 (q32) 2G	D00074	genesig <sup>®</sup> q32 format-96 reactions (Pack 1-Ambient and Pack 2-Cold)	ORF1ab + nsp16 (2 distinguishable targets)
*PRomate <sup>®</sup> COVID-19 (q32) 2G Dry	D00076	genesig <sup>®</sup> q32 format-96 reactions (Pack 1-Ambient and Pack 2-Ambient)	ORF1ab + nsp16 (2 distinguishable targets)
*PRomate <sup>®</sup> COVID-19 (q16) 2G Lite Dry	D00077	genesig <sup>®</sup> q16 format-96 reactions (Pack 1-Ambient and Pack 2-Ambient)	ORF1ab + nsp16 (not distinguishable targets)
